

Lubrication Pumps

Industry Standard in Lubrication Equipment
for Outstanding Performance and Reliability

PROVEN QUALITY. LEADING TECHNOLOGY.

Fire-Ball®: The Industry's Most Trusted Piston Pumps

Unmatched Reliability and Durability

For nearly 50 years, Graco's Fire-Ball pumps have been a mainstay in the lubrication marketplace for durability and long life. Designed for applications requiring continuous duty operation, Graco Fire-Ball pumps repeatedly outperform and outlast the competition.

Install It and Forget About It!

These pumps are built to last. With so many unique maintenance-saving features, Fire-Ball pumps reduce downtime and save you money. Whether you're pumping oil or grease for low, medium or high volume applications, trust Graco's Fire-Ball pumps to get the job done!

Typical Users

- Fast lubes
- Car/truck dealerships
- Municipalities and transits
- Construction equipment and fleet maintenance shops
- Lube trucks
- Manufacturing plants
- General service shops

Typical Fluids

- Lubricating grease
- Motor, synthetic, hydraulic and gear oils
- Automatic transmission fluid
- Undercoating
- Rustproofing
- Sound deadening

Durable

Thick cast aluminum air motor housing offers unmatched durability

Fewer Repairs

Few moving parts in the air motor assembly means less downtime and low repair cost

Reduce Downtime

Displacement rods have minimal wear due to a proprietary Graco manufacturing process

Eliminating Icing

Large air porting design provides efficient use of compressed air supply for continuous pump operation without icing

Corrosion-Resistant

Corrosion-resistant design utilizes liquid salt nitriding, nickel plating, stainless steel, aluminum and chrome on key components for longer life

Extended Seal Life

- In-line pump design aligns the air motor piston and fluid piston rods to maximize seal life
- Throat packings have a u-cup design with a hardened steel displacement rod to minimize wear
- Non-metallic poppet valves offer positive sealing performance, even with contaminated "dirty" air environments for long life without repair

Invest in the Best and Save!

Graco has the total package!

Industry Leading, Worldwide Distribution Network

Our knowledgeable network of distributors provides easy access to professionals who understand your business and recommend the equipment that best fits your application.

Total Customer Support

Leading the industry with “total customer support”, the Graco Lubrication Equipment Division offers you a dedicated Customer Support Team.

Innovative Product Solutions

Graco offers a wide variety of products that support your business, including quality pumps, meters and hose reels.

PUMPS

METERS

REELS

NXT™ Technology

Move Large Amounts of Oil and Grease Fast

Dispenses up to 117 liter (31 gallons) of oil or 26 kg (57 pounds) of grease a minute

- Tested to outperform and outlast all other pumps on the market with its long-life packing design
- Intuitive, easy-to-use controls
- Best value for the money—fewer parts, faster repairs and long-lasting durability

Markets/ Applications

In-Plant

- Supply long-pipe runs or large volume header systems with multiple dispense locations
- Fill remote reservoirs or feed an automated lubrication system
- Transfer and dispense large amounts of lubricant to supply a production process

Mines/Construction

- Rapid fill of lube trucks
- Service off-road equipment needing high volume transfers of oil or transmission fluids
- Feed lubricant to a mine or construction process

Fleets

(municipal, military, aviation)

- Rapid transfer or dispense of lubricants to service fleet equipment
- Supply large volume header systems with multiple dispense locations

What's NXT?

Innovation that boosts your productivity.

Graco NXT. It's what's next.

DataTrak...More Control Than Ever Before

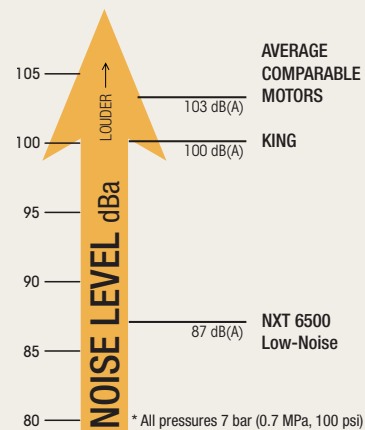

Modular—No Special Tools Required

Graco air motors are designed with modular components so that no special tools are needed for assembly and repair.

Advanced Graco Control Architecture

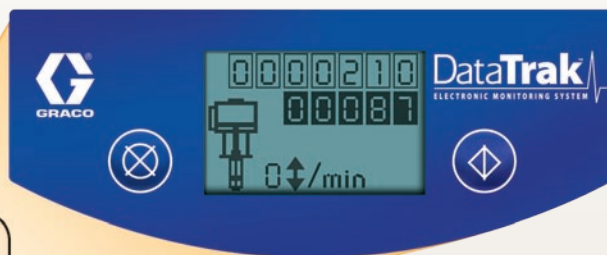

The Rules Have Changed

- Provides pump runaway protection by monitoring pump speed. DataTrak automatically shuts the pump off when material runs out or if a hose breaks.
- Tracks and displays material usage and volumetric flow, and tells you how much material is left in the drum. With an accurate, unbiased measurement of flow, DataTrak helps ensure quality control and eliminates material waste.
- Provides pump diagnostics for better maintenance. DataTrak tracks material throughput, which indicates when it's time for routine maintenance. It also provides pump lower diagnostics and lets you know whether the pump is diving in the up or down stroke—a good indication that packings or balls are starting to wear, or the pump needs to be cleaned.

Quiet Operation

The quiet, low-noise NXT Air Motor operates around 87 decibels, while other comparable motors operate up to 103 dB(A).

Remote Control for Maximum Convenience

- Integrated ram and pump control is easy to use and easy to see
- Intuitive electronic user interface gives the operator immediate and important operating data at the touch of a button

Reduced Icing Keeps You Pumping

Frost or ice can freeze-up the pump when you're moving large volumes of oil or grease. Graco's all new de-icing technology adds warmer ambient air to the air motor to melt any build-up.

Oil Pumps

Mini Fire-Ball® 225, Fire-Ball 300 and Fire-Ball 425

Features and Benefits

- Non-corrosive air motor design for long life (metal parts made of stainless steel, aluminum and chrome)
- No metal-to-metal contact means longer pump life and ensures pump will withstand harsh environments
- Double-acting pump provides reliable fluid flow
- Few moving parts translates into low maintenance and low cost of ownership
- Open exhaust port provides continuous operation without icing

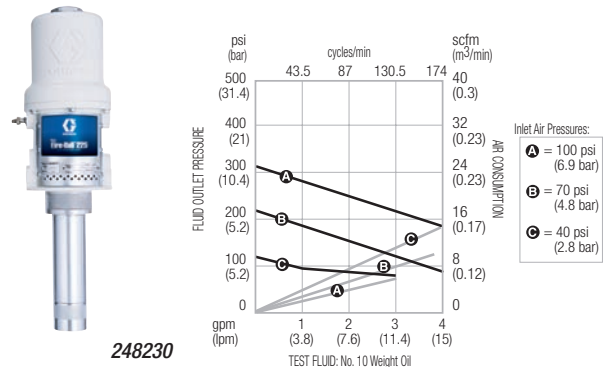

Typical Applications

- Medium to low volume and pressure lubricant transfer
- Automotive dealerships
- Heavy-duty dealerships
- Fast lube centers and service shops
- Fleet service facilities
- In-plant
- Lube trucks
- Mining

Typical Fluids Handled

- Petroleum- and synthetic-based oils

Oil Pumps

NXT™ High-Flo®

Features and Benefits

- Move large amounts of oil fast—dispenses up to 119,2 liter (31.5 gallons) of oil per minute
- Tested to outperform and outlast all other pumps on the market with its long-life packing design
- Models available with intuitive, easy-to-use DataTrak™ controls—gives you pump diagnostics, material usage tracking and pump runaway protection
- Reduces icing and noise—new NXT air motor is up to 50% quieter than previous models

Typical Applications

- In-plant to supply long-pipe runs or large volume header systems with multiple dispense locations
- Fill remote reservoirs or feed an automated lubrication system
- Transfer and dispense large amounts of lubricant to supply a production process
- Mines/construction for rapid refill of lube trucks and to service off-road equipment

--	---------------	---------------	----------------	------------------	---	---	------------------	---------	------------------

309966

Line Length‡: Up to 30.5 m (100 ft)
Annual Usage: Up to 2,268 kg (5,000 lb)

Dispense Points: 1
Typical Applications: Small maintenance facility

Fire-Ball 300, 50:1

	.54 (1.19)	580 (8400)	76.2 (3)	3.0-9.7 (30-140)	0.645 m ³ /min (22.8 cfm) @ 7 bar (100 psi)	CS, Delrin®, Buna-N, Polyurethane	3/8 in npt(f)	Slotted	1/4 in npt(f)
--	---------------	---------------	-------------	---------------------	---	-----------------------------------	------------------	---------	------------------

308883

Line Length‡: Up to 76.2 m (250 ft)
Annual Usage: Up to 4,535 kg (10,000 lb)

Dispense Points: 1 to 2
Typical Applications: High pressure grease to 579 bar (8400 psi)

Fire-Ball 425, 50:1

	1.5 (3.35)	517 (7500)	108 (4.25)	2.8-10.4 (40-150)	0.54m ³ /min (19 cfm) @ 4.8 bar (70 psi)	CS, Leather	1/2 in npt(f)	Slotted	3/8 in npt(f)
--	---------------	---------------	---------------	----------------------	--	-------------	------------------	---------	------------------

306674/306982

Line Length‡: Up to 76.2 m (250 ft)
Annual Usage: 9,072 kg (20,000 lb) or more

Dispense Points: 4 or more
Typical Applications: High pressure grease to 517 bar (7500 psi)

Fire-Ball 425, 75:1

	.88 (1.95)	517 (7500)	108 (4.25)	2.8-7 (40-100)	0.736 m ³ /min (26 cfm) @ 7 bar (100 psi)	CS, Leather	1/2 in npt(f)	Slotted	3/8 in npt(f)
--	------------	---------------	---------------	-------------------	---	-------------	------------------	---------	------------------

308777/306982

Line Length‡: Up to 152.5 m (500 ft)
Annual Usage: 6,804 kg (15,000 lb) or more

Dispense Points: 4 or more
Typical Applications: High pressure grease to 517 bar (7500 psi)

Fire-Ball 300, 15:1

	2.65 l/min (0.7 gpm)	186 (2700)	76 (3)	2.8-12.5 (40-180)	0.48 m ³ /min (17 cfm) @ 7 bar (100 psi)	CS, AL, Leather, PTFE, Rubber	3/8 in npt(f)	1 in npt(f) Straight Inlet	1/4 in npt(f)
--	-------------------------	---------------	-----------	----------------------	--	-------------------------------	------------------	-------------------------------	------------------

306531

Line Length‡: Up to 76.2 m (250 ft)
Annual Usage: Up to 4,535 kg (10,000 lb)

Dispense Points: 1 to 2
Typical Applications: Medium Pressure Grease to 186 bar (2700 psi)

Fire-Ball 425, 10:1

	13.25 l/min (3.5 gpm)	124 (1800)	108 (4.25)	2.8-12.5 (40-180)	0.37 m ³ /min (13 cfm) @ 7 bar (100 psi)	Steel, Bass, Aluminum, Leather, Buna-N	1/2 in npt(f)	Slotted	1 in npt(f)
--	--------------------------	---------------	---------------	----------------------	--	--	------------------	---------	----------------

309407

Line Length‡: Up to 152.4 m (500 ft)
Annual Usage: 9,072 kg (20,000 lb) or more

Dispense Points: 4 or more
Typical Applications: High pressure grease to 124 bar (1800 psi)

* Not recommended with hose reel

‡ Consult your local authorized Graco representative for line or pipe sizing

**NXT Check-Mate pump is available in floor stand or RAM Package.
See NXT package section of this book for more information.

Grease Pumps

Mini Fire-Ball® 225, 50:1

Features and Benefits

- Non-corrosive air motor design for long life
- Double-acting pump ensures fluid flow
- Robust grease inlet cage withstands the most abusive handling

Typical Applications

- Medium to high pressure, low to medium volume grease dispense
- Automotive dealerships
- Heavy-duty dealerships
- Fast lube and service centers
- Fleet service facilities
- Mining
- In-plant

Typical Fluids Handled

- Grease up to NLGI #2

Typical Applications: Smaller continuous duty, maintenance facility

Check-Mate, 63:1**

	100cc	5.2 (11.4)	310.3 (4500)	NXT 3400	5.0 (72)
--	-------	---------------	-----------------	----------	----------

Line Length†: Up to 76.2 m (250 ft)
Annual Usage: Up to 9,072 kg (20,000 lb)

Dispense Points: 1 to 2 (simultaneous)
Typical Applications: Smaller continuous duty, maintenance facility

Check-Mate, 68:1**

	200cc	10.4 (22.8)	356.5 (5300)	NXT 6500	5.4 (78)
--	-------	----------------	-----------------	----------	----------

Line Length†: Up to 152.5 m (500 ft)
Annual Usage: Up to 9,072 kg (20,000 lb.)

Dispense Points: 1 to 2 (simultaneous)
Typical Application: Smaller continuous duty, maintenance facility

RAM-mount

* Graco recommends 20 CPM or less for supply applications.
**NXT Check-Mate pump is available in floor stand or RAM Package.
See NXT package section of this book for more information.

Other Products available from Graco

Electronic & Mechanical Meters & Dispense Valves

Up to
19 l/min.
(6 gpm)

LDM and LDP Meters

- 69 bar (1,000 psi)
- Manual and pre-set dispense
- Dispenses motor oils, ATF, gear lube and anti-freeze
- Automatic nozzle only
- Indoor use
- Multiple extensions available

Up to
53 l/min.
(14 gpm)

SDM and SDP Meters

- 103 bar (1,500 psi)
- Manual and pre-set dispense
- Dispenses motor oils, ATF, gear lube and anti-freeze
- High flow
- Indoor or outdoor use
- Multiple extensions available

Up to
53 l/min.
(14 gpm)

Matrix™ Meter

- Dealerships, fleets, mining, and off-road, construction service
- Works with Matrix™ Total Fluid Management System™ to control and track inventories
- Up to 53 l/min. (14 gpm)
- Up to 3 presets

Up to
57 l/min.
(15 gpm)

SDV15 Control Valve

- 103 bar (1,500 psi)
- Dispenses motor oils, ATF, gear lube and anti-freeze
- Sturdy cast body designed for use in tough environments
- Lock-on trigger
- Indoor or outdoor use
- Multiple extensions available

Up to
76 l/min.
(20 gpm)

XDV20 Control Valve

- 103 bar (1,500 psi)
- Dispenses motor oils, ATF, gear lube and anti-freeze
- High flow valve
- Sturdy cast body designed for use in tough environments
- Twist-lock-on/off trigger
- Indoor or outdoor use
- Multiple extensions available

Up to
53 l/min.
(14 gpm)

SDI15 In-Line Meter

- 103 bar (1,500 psi)
- Dispenses motor oils, ATF, and anti-freeze
- High flow electronic meter displays in pints, quarts, liters or gallons
- Indoor use

Up to
15 l/min.
(4 gpm)

Mechanical Meter

- 69 bar (1,000 psi)
- Manual and pre-set dispense
- Dispenses a variety of petroleum and synthetic based oils and anti-freeze
- Indoor and outdoor use

Hose Reels

LD Series Enclosed

- Simple to install - mounts in minutes
- Enclosed reel for safety and protection-compact enclosure extends hose life
- Full flow swivel - maximizes fluid output while minimizing pressure loss
- Easily add or decrease spring tension while pressurized

SD Composite Series

- Designed for small service garages and repair shops
- Handles hose lengths up to 20 m (65 ft)
- Structurally reinforced frame doesn't flex when handling hose
- Multiple mounting options
- Lightweight composite spool resists dents and corrosion
- Compact design easily fits inside tool bench or cabinet

SD Steel Series

- Designed for daily use by professional mechanics
- Handles hose lengths up to 20 m (65 ft)
- Long-lasting spring provides constant spring torque through the entire range of motion
- Multiple mounting options
- Steel spool for demanding applications
- Open swivel ports ensure high fluid flow with minimal pressure loss

XD Series

- Designed for robust/heavy-duty applications such as mobile lube trucks or large equipment service
- Hose lengths up to 20 m
- Dual pedestal frame provides increased strength for extreme-duty applications
- Long lasting spring is sealed for protection against the weather
- Durable steel spool rides on sealed roller bearings to ensure trouble-free performance

700 Series

- Fully ported swivel and shaft for unrestricted flow
- Handles hose lengths up to 23 m (75 ft)
- Heavy-duty ball bearings outlast sleeved-type bearings
- Easy rewind with minimal hose guidance
- Overhead mounting kit available

750 Series

- Heavy-duty, high volume reel
- Handles hose lengths up to 15 m (50 ft)
- Industrial-grade paint for high abrasion and corrosion resistance
- Full-flow shaft
- Heavy-duty brackets and springs
- Rugged base and hose rollers
- Heavy-duty latch mechanism

Enclosures

- Enclosures provide protection to extend the life of hoses and bearings
- Designed for enclosing the LD and SD single pedestal reels
- End caps are easily removed for easy access to reels
- Enclosure mounting channels available to accommodate one to six reels

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
